This cookies policy describes:

1. What are cookies and why are cookies used?

1.1 Cookies are small text files which are placed on your device when you visit and use our Site. Cookies will collect information relating to your use of our Website, information about your device such as IP address and browser type, demographic data and, if you reached the Site through a third party website, which third party website directed you to the Site.

1.2 Cookies allow websites to recognise you, remember your preferences and tailor your use of a website. Information provided by cookies can help us to analyse your use of our Website and help to provide you with a better user experience.

1.3 Cookies are referred to as either "session" or "persistent" cookies, depending on how long they are used for:

(a) Session cookies only last for the duration of your online session and disappear from your device when you close your browser. Session cookies are not stored on your device's permanent storage (such as a hard drive).
